

**Rick Cummings, CKV Products**

**Why do you want to serve on the BAGI Board of Directors?**

I have served 2 terms on the Johnson County Council and it is time to expand my involvement in the greater BAGI. We have experienced incredible growth the past 2 years and are building more and more relationships. This will be a chance to not only expand our reach but also to be able to provide input from a vendor into the industry to allow us to continue to work together to improve quality, efficiencies, and trusted relationships that result in a better overall experience for each home buyer.

**What is your vision as a potential board member?**

My vision is that the housing industry is certainly in an upswing, and while it may never reach the levels it was prior to 2008 I expect continued steady growth not just short term but for the foreseeable future. Again, we all benefit from new and different ideas as the world of construction has changed from the peak days and we need to have the input of builders and vendors alike to be able to handle that growth effectively and with reasonable profits for all involved. I believe I can bring a different perspective to the board while still having over 20 years experience in the field.

**How are you currently involved with BAGI?**

I hold the position of secretary for the Johnson County Builders Association.

**What is your current position and what are your interests/hobbies?**

I am the owner of CKV Finished Products. I enjoy spending my weekends on the lake with my family and friends.
