

Cathy Stegemoller, Steg Plumbing

Why do you want to serve on the BAGI Board of Directors?

I want to serve on the BAGI Board of Directors because I believe so strongly in the importance of this organization.

What is your vision as a potential board member?

If elected, I will attend all Board meetings and express my opinions when asked to help shape the future of BAGI for the benefit of our members.

How are you currently involved with BAGI?

I am currently the Hendricks County Council President and a Current Director on the Board of BAGI. I also have served on the Executive Committee of the BAGI Board as Secretary for the last two (2) years.

What is your current position and what are your interests/hobbies?

I am President and owner of Steg Plumbing Company. Steg Plumbing has been in business for 22 years serving Central Indiana. My interests and hobbies are boating, reading, and getting together with friends and family. I am married with three kids: Chad (30), Alexa (20), and Clay(17).

What are the most important issues facing the residential industry and how can BAGI address them?

One of the biggest challenges we have as a Building Industry is the current labor pool. All trades are suffering from a labor shortage and we need to educate the public about the careers available in the construction industry. BAGI should set up a taskforce to help educate the schools, career centers, and technical colleges about the construction industry careers.

How have your experiences in the building industry influenced your life?

I have developed communication, negotiation, and professional skills by being a part of BAGI and the Building Industry. I have gained many professional relationships as well as many good friends in this industry.
